

Minghao Miao

minghao.miao@smail.nju.edu.cn

Research Interests

Complex Geometry, Kähler Geometry: Currently, I am applying algebraic K-stability theory to questions about Kähler-Ricci Flow and Kähler-Ricci soliton on Fano variety.

Education

Nanjing University <i>M.A. Candidate in Mathematics, Department of Mathematics</i> Thesis Advisor: Professor Gang Tian	September 2021 – Present <i>Nanjing, Jiangsu, China</i>
Nanjing University <i>B.S. in Mathematics, Kuang Yaming Honors School</i>	September 2017 – July 2021 <i>Nanjing, Jiangsu, China</i>

Experience

Beijing International Center for Mathematical Research (BICMR) <i>Visitor</i>	September, 2021 – Present <i>Beijing, China</i>
Duke University <i>Visiting International Student Program</i>	August, 2019 – December, 2019 <i>Durham, NC, USA</i>

Publications and Preprints

Optimal Degenerations of K-unstable Fano threefolds
Joint work with Linsheng Wang, arXiv:2401.13999

Kähler-Ricci solitons on Fano threefolds with non-trivial moduli
Joint work with Linsheng Wang, arXiv:2309.14212

A Note On Kähler-Ricci Flow on Fano Threefolds
Joint work with Gang Tian, arXiv:2210.15263, accepted by Peking Math. J.

Research Presentations

Optimal Degenerations of K-unstable Fano Threefolds, Complex Analysis and Geometry Seminar, Rutgers University, 02/2024.

Kähler-Ricci soliton and weighted Abban-Zhuang Estimate, Geometric Analysis Seminar, Westlake University, 12/2023.

Kähler-Ricci soliton and weighted Abban-Zhuang Estimate, Recent Progress on Analytic Minimal Model Program, Tianyuan Mathematics Research Center, 10/2023.

Kähler-Ricci Flow on Fano Threefolds, National Workshop on Geometric Analysis, Xinjiang Normal Univeristy, 06/2023.

Kähler-Ricci Flow on Fano Threefolds, Geometric Analysis Seminar, Westlake University, 12/2022.

Kähler-Einstein metric on Fano manifold, Students Geometry and Analysis Seminar Talk, University of Toronto, 09/2022.
